
CuraScript SD - The Specialty Distributor of Choice

Avoid Rejection of Your DEA 222 Form

In order to continue to provide you the superior customer service you have come to expect, please be advised that all DEA 222 forms must be completed following the guidelines and regulations requested by the DEA.

This includes properly filling in the full legal name of the distributor on your form. Effective **April 1, 2012** when ordering class II narcotics; **CuraScript SD Specialty Distribution** must be entered in the supplier field. All other variations such as CuraScript, CuraScript SD will result in an automatic rejection of the form.

We look forward to facilitating your ordering process further which is why we are excited to announce the current development of an online controlled substance ordering system (CSOS) that is expected to be available later this year.

Thank you for using CuraScript SD Specialty Distribution for your pharmaceutical and supply needs.

Sincerely,

The CuraScript SD Specialty Distribution Customer Service Team
