

PROVIDING PERSONALIZED SERVICE FOR SPECIALTY PHARMACY

Did You Know?

*Specialty Products now
constitute over 40% of
U.S. Pharma sales*

Providing Specialized Care

We Offer Full Service Specialty Pharmacy and Distribution Solutions

01 | Understanding Your Needs

Specialty Drugs are expensive drugs that treat rare and complex conditions like HIV, autoimmune diseases and organ transplant patients. They often require special handling and patients need personalized care and support to adhere to their regimen and manage side effects. At CuraScript SD, we understand the time and dedication it takes for physicians to care for these patients, so we have developed a high touch, high service model to serve our physicians.

02 | Dedicated Account Managers

We understand the needs of your practice and work diligently to provide the best options for you. CuraScript SD assigns dedicated Account Managers to each practice to ensure a single point of contact who will collaborate closely with

each physician to discover and implement the best solutions possible to you. In addition, our account managers are supported by our Sales Support staff and Customer Support team to provide unparalleled service.

Our Total Account Management approach to serving our specialty care physicians offers new avenues for growth. From revenue cycle management, contract eligibility, to inventory controls, CuraScript SD offers solutions tailored to physicians for practice success.

03 | Access to Critical Products

In addition, CuraScript SD has developed an allocation system that is used with many products that are currently in short supply. Inventory is managed by a cross-functional team from both Sales and Procurement, ensuring that our physicians have access to the critical products needed to successfully manage patient care.
